The **Heart Kingdom**

When **jealousy** **visits**

Nel Gamba

Dedication

For Louie and Ellie,

Papa and Mama love you so much. We hope you grow up healthy in both heart and mind, always knowing just how deeply worthy and loved you are. Embrace exactly who you are, and walk through the world with confidence.

As you discover your incredible worth, our hope is that you grow to understand your emotions—because knowing your own heart will always be your greatest bridge to navigating the big, beautiful world out there.

With all our love, Papa and Mama

This is Ellie. On the outside, she looks like a regular girl playing quietly in the living room with her favorite wooden blocks. But on the inside, Ellie has a magnificent secret. She is a brave and kind Princess who rules over her very own Kingdom of the Heart!

Princess Ellie has a very important rule for her kingdom: "A wise Princess cares for all her creatures, but she must keep her castle safe."

Today, Mama walked into the living room and handed Ellie's older brother, Louie, a brand-new, super shiny toy robot. Louie gasped with joy, and the robot's lights flashed brightly.
